

<b>MODEL</b>	<b>SKY450</b>
Thrust and traction force	450 N
Strokes	180, 230, 350, 550, 750, 1000 mm
Power supply voltage	110-230V~ 50/60 Hz
Current absorption at nominal load	0,28 – 0,19 A
Travel speed without load	21,6 A - 24 W
No load speed	6,7 mm/s
Duration of no load stroke	In accordance with the stroke length
Electrical insulation	Class II
Duty cycle	2 cycles
Working temperature	-5°C - +65°C
Protection index for electrical devices	IP44
Soft stop	NO
Relax function	YES
Adjustment of connection to window	At absorption of power
Connection in parallel	YES (Max 20)
Connection in tandem	YES
Length of power cable	1 m
Stroke-end at opening and closing	At absorption of power
Protection against overload at opening and closure	At absorption of power
Static holding force	2200 N
Dimensions	103x 47x (Stroke + 135) mm
Weight	Varies according to construction
